U.S. Government Required Disclaimer - Commodity Futures Trading Commission Futures and

Options trading has large potential rewards, but also large potential risks. You must be aware of the risks and be willing to accept them in order to invest in the futures and options markets. Don't trade with money you can't afford to lose. This is neither a solicitation nor an offer to Buy/Sell futures or options. No representation is being made that any account will or is likely to achieve profits or losses similar to those discussed on this web site. The past performance of any trading system or methodology is not necessarily indicative of future results.

CFTC RULE 4.41 - HYPOTHETICAL OR SIMULATED PERFORMANCE RESULTS HAVE CERTAIN LIMITATIONS. UNLIKE AN ACTUAL PERFORMANCE RECORD, SIMULATED RESULTS DO NOT REPRESENT ACTUAL TRADING. ALSO, SINCE THE TRADES HAVE NOT BEEN EXECUTED, THE RESULTS MAY HAVE UNDER-OR-OVER COMPENSATED FOR THE IMPACT, IF ANY, OF CERTAIN MARKET FACTORS, SUCH AS LACK OF LIQUIDITY. SIMULATED TRADING PROGRAMS IN GENERAL ARE ALSO

SUBJECT TO THE FACT THAT THEY ARE DESIGNED WITH THE BENEFIT OF HINDSIGHT. NO REPRESENTATION IS BEING MADE THAT ANY ACCOUNT WILL OR IS LIKELY TO ACHIEVE PROFIT OR LOSSES SIMILAR TO THOSE SHOWN. Where describing account protection or potential gains, all information is for education regarding the backtests. Reality differs from theory, stop losses may not trigger, or programs/technology may malfunction. Use at your OWN RISK.

All information on or related to this website is not to be misconstrued as professional advice of any sort, and independent financial advice or otherwise is recommended. You

use all and any information, material or services at your sole discretion, risk and decision. **Terms & Conditions:** http://autotakeprofit.com/?page_id=196

No representation is being made that any account will or is likely to achieve profits or losses similar to those shown. In fact, there are frequently sharp differences between hypothetical performance results and the actual results subsequently achieved by any particular trading program. Hypothetical trading does not involve financial risk, and no hypothetical trading record can completely account for the impact of financial risk in actual trading.

All information on the website or any e-book purchased from the website is for educational purposes only and is not intended to provide financial advice. Any statement about profits or income, expressed or implied, does not represent a guarantee. Your actual trading may result in losses as no trading system is guaranteed. You accept full responsibilities for your actions, trades, profit or loss, and agree to hold Ploutos Assets, and any related party or affiliate and any authorized distributors of this information harmless in any and all ways. The use of this system constitutes acceptance of our user agreement.

This document refers to information which is constantly changing and may become out of date quickly.

What is Ploutos *Synergy*?

We have become quickly known for our algorithmic trading which (at user request) is shared so they receive our trades without doing any work of their own. However, a client may sign up at any time, during a period of drawdown or during a period of profit. Due to the long term nature of the trading, this can sometimes mean a client does not have the patience or durability to wait for the trading to turn around.

Since the algorithms used within our framework generate profit from a multitude of ways, it means there is **always** income. This is by right, solely our income however to encourage certain clients, ***we may at our discretion,*** offer clients Synergy, which means the fusing of trading profit or loss and our earnings, to **dampen loss** and **amplify profit**.

A real example:

During a profitable run early 2014:

**Data and calculations derived from MT4 order history*

Date Range	Cumulative Profit
March 2014	5.27%
April 2014	4.82%
May 2014	5.33%
June 2014	-5.82%
July 2014	-2.07%
August 2014	9.43%

Loss
experienced

Normal
Recovery

As can be seen the trading recovered itself without any Synergy or Support, however, for clients with the long term appetite who had a bad start, for example, starting during a drawdown, we may at our discretion use our volumic based income to support them during a drawdown. To compare, on the next screen you will have Synergy side by side.

A real example:

**Data and calculations derived from MT4 order history*

Date Range	Cumulative Profit	% Maximal Support
June 2014	-5.82%	3.52%
July 2014	-2.07%	8.45%
August 2014	9.43%	8.52%
September 2014	11.19%	13.35%

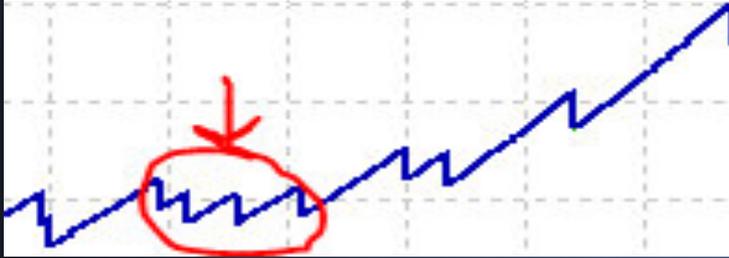

Discretionary support offered

No need for support when profiting

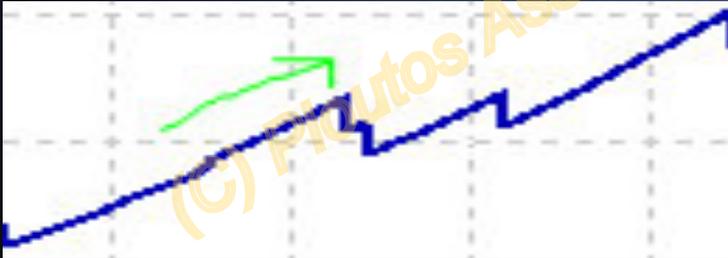

Some extent of patience is still required on the client as they must wait for the month end due to cashflow for any support calculations or deposits to be seen in their account. It is also under agreement that the client continues to trade so that the Synergy of earnings and trading together, dampen loss and amplify profit, as they are using their money and our money to trade.

Simply put:

Support during drawdowns:

Allow Profits to run: (as per usual setup)

© Picutos Assets Limited : www.AutoTakeProfit.com

Conclusion:

Result: A reduced-risk system which combines risk earnings and proportional earnings together, to heavily skew the long term success of trading relative to linear direct trading.
